SUMMER WATER FUN

We kicked off our summer fun with water adventures. On hot summer days, playing with water was more than welcome. Mist, ice, pools, sponges, bubbles, hoses and water pipes kept us happy, busy, and cool 😊. And the cherry on top? A splash-taste day at Zlaté Piesky, the best time ever! What better time to play with water than summer?

SUMMER MOUNTAIN FUN

Just like every year, we were also challenged to conquer Pajštún Castle and explore forests. We packed everything we needed, especially good energy and commitment, and set off on a half-day trip to nature to admire a beautiful view and enjoy well-deserved picnic.

We also learned about ultimate survival, where relying on instincts is the key to overcoming the challenges. We explored how to stay safe in danger, practiced the first aid, trained problem solving, and of course, tested our mental and physical limits in “Spartan race”.

SUMMER ANIMAL FUN

Our animal adventure started in ZOO. Taking a ride on a mini train, we tried to spot wildlife animals and explore the importance of their diversity in the world. Despite, they also desperately searched for shade like us, we could see many - playful monkeys, towering giraffes, mighty rhinos and even a baby zebra 😊 .

The real-like farm was another stop on our journey of learning about animals. We checked on the domestic animals and understood why we keep chicks, ducks, pigs, cows or goats. We even got to pet a friendly sheep that weren't shy, at all. 😊

At last, not least, we learned about animals we keep at home for pleasure 😊. Our pet show was a paaaws-itively great event, where kids proudly showed off their dogs, cats, hamsters, turtles, and even snails 😊. The pets slid their way into everyone's heart, each one with its own special charm. Let us also thank to parents for their great cooperation.
