### ON THE ROAD

Topic "On the road" brought our little kindergarteners to traffic museum which was a delightful success. While small ones visited a traffic museum in Bratislava, Y1s travelled to Austrian Railway museum. The children were captivated by the interactive exhibits, learning about road safety and the history of transportation.

Children worked on various traffic style projects interconnecting various educational fields.

## COLOURS OF THE WORLD

Get ready for a splash of colour! From brilliant blue on Monday up to cheerful yellow on Friday. Our classrooms were a kaleidoscope of colours, each day featuring a new and exciting hue! Surely it was the most colourful week in our kindergarten.

All children were thrilled to join our colour week - exploring every day from a different colour point of view.

## EVERYBODY NEEDS MOM

Mother's Day is the special time of year when we get to celebrate our first best friend and the person we can always turn to with anything. Like previous years, this year our mommies were again invited for a very special performance and workshops. Just like our topic – 'Famous women in stories,' our mommies are the famous women in the stories we live ♥

## THE WORLD OF WORK

This month we got lucky to enjoy career exploration hunts and learn about jobs of our parents. And so, we met musicians, artists, doctors, managers, therapists, lawyers, IT specialists and many more. We are extremely grateful to have a chance to see a wide range of options the little person has when deciding what to be as a grownup. **BIG THANK YOU** to all parents who joined this project.

Various classes worked on their "job projects" to explore the variety of occupations.

## WORLD OF MONEY

Talking about various jobs and occupations has naturally brought us to the world of money. It may seem like little children can't understand it, but the truth is opposite. During this week we learned how coins and bills are used to buy things and why saving money is important. We also would like to thank to parents who helped us and inspired our children to understand the importance of smart financial habits in the future.

## KIDS DAY

On 30<sup>th</sup> May, once again thanks to our parents, Funiversity together with Cambridge school spent an amazing day in Slovan football stadium and celebrated "kids' day" in a big style. While the small ones enjoyed superhero checkpoints, Y8 students could take an advantage of the leadership opportunity. It was such a wonderful experience this year 😊 !
